STUDENT SUCCESS STARTS WITH SMART SCREENING.

That's why leading healthcare
systems and education institutions
trust PreCheck.

PreCheck

StudentCheck

The Screening Bottleneck in Healthcare Education

Schools are buried in manual screening processes. Students miss deadlines. Clinical sites face compliance risks.

With limited placement slots, minor delays mean lost opportunities.

STUDENTCHECK OVERVIEW

PreCheck

StudentCheck

StudentCheck: Built for Modern Healthcare Education

A fully integrated platform that supports all phases of healthcare student screening, from pre-placement checks to real-time compliance monitoring.

- Developed by PreCheck, an accredited background screening provider trusted by 2,000+ programs
- Over 82,000 students screened annually
- Tailored for the unique needs of healthcare educators, students, and clinical partners

How We Help

StudentCheck delivers what legacy platforms can't: intuitive UX, faster results, and real-time compliance tracking built for today's healthcare education needs.

Criminal Background Checks

7-year county & state checks, SSN trace, national sex offender registry, exclusion screening, and more

Drug Testing

Customizable panels, 10,000+ collection sites, electronic chain of custody, medical review officer support

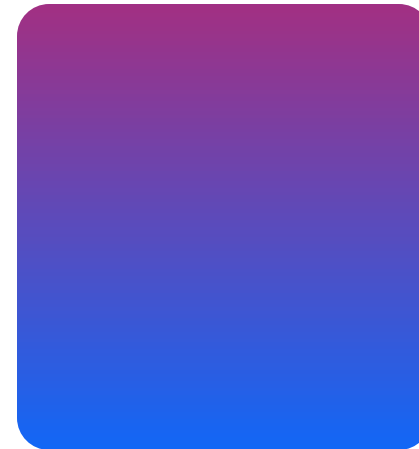

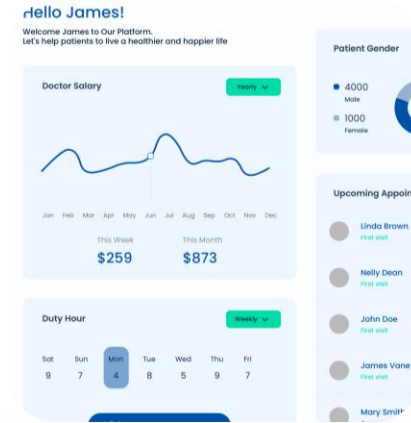

Immunization Tracking

All records reviewed by a health professional, with real-time compliance dashboards, email alerts, and results within 48 business hours

What We Do Differently

Is your current platform holding you back?

- **User Experience:** StudentCheck offers an intuitive, mobile-friendly interface
- **Speed:** Drug testing and background results in 48 hours; 80% of background checks completed within an hour
- **Customization:** Flexible setup for each program's specific requirements instead of a one-size-fits-all
- **Visibility:** Real-time compliance status across cohorts with automated alerts and admin dashboards
- **Support:** Personalized service from PreCheck's award-winning healthcare support team

Where StudentCheck Can Be Used

- Undergraduate or graduate students in healthcare programs requiring clinical internships or rotations
- K-12 teacher education programs placing intern teachers into public or private school districts
- Allied health, pharmacy, social work, or EMT programs
- Students placed in hospitals, clinics, or government agencies
- Any program needing to manage and verify background, immunization, or drug screening data at scale

IMPACT & RESULTS

ENDORSEMENT WORTH REPLAYING.

We have been using Cive for many years and will continue to use them for our healthcare student- background, drug screen, and immunization tracker needs. They are quick to respond and assist with any needs, concerns, or questions. Other companies have tried to get us to change but we will not. Cive customer support is excellent and cannot be matched. Their resources are easy to use and they provide one-on-one instruction if needed.

– Brooke, H., ASN-RN Instructor

ENDORSEMENT WORTH REPLAYING.

As the primary point of contact for our program, I have collaborated closely with Cisive over the past four years and have been consistently impressed by their products and the exceptional customer service provided by their team. The level of support they have extended to us and our students is unparalleled.
